

# THIS IS AN AMATEUR RADIO STATION

It is licensed by the Federal Communications Commission. I had to learn the Morse code and a lot of electronic theory to be able to operate it legally. In this station, it is possible to transmit and receive signals all over our earth. I can handle emergency and personal communications and create good will and diplomacy. I did a lot to do a lot, so don't give me any static about how messy this place is!

Back in the day, for a plugger to be involved in "social media," he first had to pass the ham radio license exam.

"And under the terms of the will, your uncle is leaving you \$750,000—of which \$50,000 must be spent for ham gear."
